NMR data processing software

Delta NMR Software v5.0

NMDT_0043

Data Slate (Part 6)

＜ How to align multiple spectra variously ＞
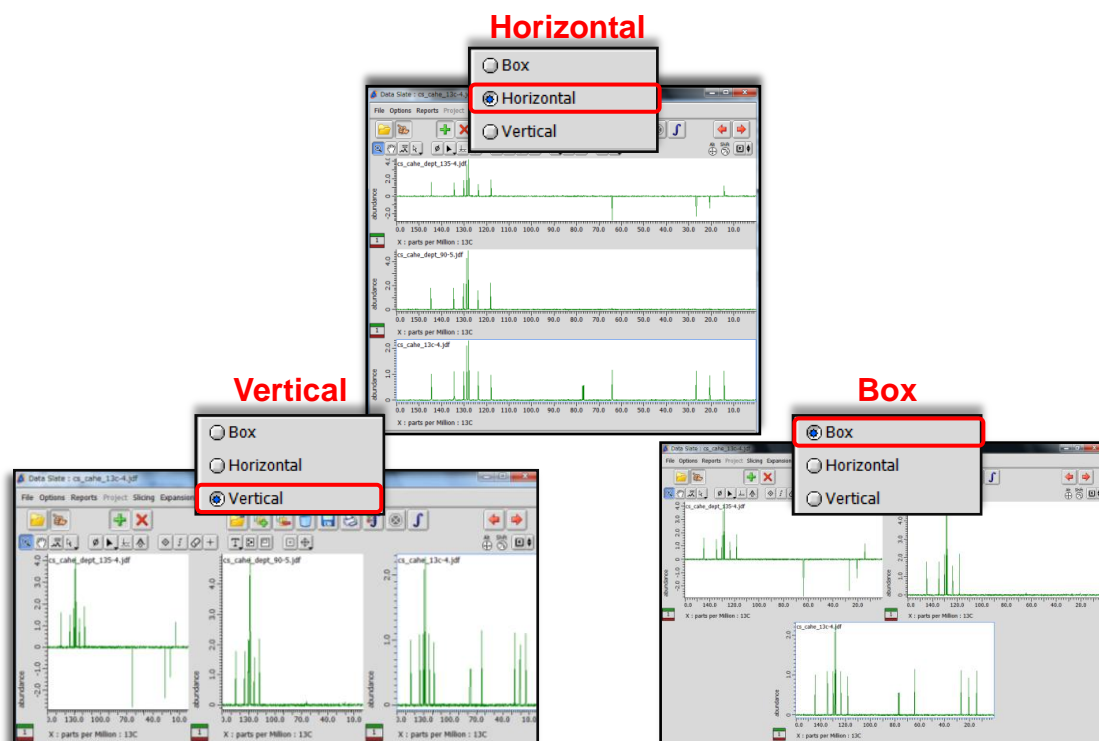

Data Slate can display multiple spectra in various ways. 1D and/or 2D spectra can be aligned horizontally, vertically and in boxes.

★ Refer to NMDT_0025 for the display function of multiple spectra in one Data Slate window.

Horizontal

Vertical

Box

Select **Options – Box** (**Horizontal** or **Vertical**) to change the alignment of the multiple spectra.

In the example below, three spectra are displayed in the **Box** mode.
