How to Set Default Data Folder

Delta software can be customized in many ways. In this issue of Delta Tips, we will demonstrate how the default data folder can be changed permanently by editing Preferences. We will change the default data folder from 'Delta data' to 'test data'.

'test data' is a new folder on the Desktop

① Select **Options — Preferences** in the **Delta** window to open **Preferences** window.

🖉 JEOL Delta v5.2.1				Preferences : Personal		×
File Options Acquire Process View Analyze Tools				Parameters Options		
	Preferences ^+, % Switch Preference Set			Personal Directory Printing	Jata Geometry Colors System Miscellaneous Tools
